

# Transport Problems

INTERNATIONAL SCIENTIFIC JOURNAL

Volume 21 Issue 2

CONTENTS

	Page
1. Skórska H.: Using eye-tracking to assess drivers' perceptions while utilizing a camera-monitor system and external mirrors: a case study in actual road traffic .....	5
2. Duda J., Karkula M., Skalna I., Kisielewski P., Redmer A.: Mixed fleet bus scheduling with timetable shifting and vehicle-crew constraints: a real-world computational study.....	19
3. Nardoanni S., Sierpiński G., Cappelli G., Saccà E., D'Apuzzo M., Nicolosi V.: Investigating the role of vehicle type in the effectiveness of vertical traffic calming devices: a mathematical model approach.....	33
4. Ramadhani A., Soeparno, Amudi A., Makhmudiyah N., Prasetya S.P., Murtini S., Hidayati A.: GIS-based initial planning of urban transportation using a transit-oriented development framework: evidence from Gresik Regency, Indonesia .....	47
5. Lyubenov D., Kadikyanov G., Ivanov R., Ratiu S., Staneva G., Minkovska I.: Experimental determination of the time required to increase the braking deceleration of vehicles .....	61
6. Luściński S.: Modeling intermodal container transport dynamics with Vensim: a case study of the Gdansk–Malaszewicze corridor .....	73
7. Grunewald E.: How lead time before servicing influences the competitiveness of an automated on-demand shuttle: a case study .....	87
8. Korecki Z., Hoika T.: Manned–unmanned teaming and collaborative combat aircraft .....	101
9. Soulmana B., Dahia Z., Boukebbab S.: Windshield, mobile phone, and seat belt detection using YOLOv11 for driver monitoring systems.....	113
10. Posacka K., Chełstowska A., Zalewski P.: Conventional and unconventional maneuvering of container vessels without tugboat assistance at selected terminals in the port of Rotterdam.....	127
11. Liebuviene J., Jokubyniene V.: The role of synthetic diesel in reducing the environmental impact of road transport .....	141
12. Rakhmatulloh A.R., Dewi D.I.K., Aksana C.O., Candra M.H.: Assessing urban equity through spatial accessibility: a comparative analysis of BRT systems in Indonesian coastal cities .....	155
13. Gadri S., Mekhalifa M.Z.: Smartguardian: an automatic system for ensuring the safety of automobile drivers .....	169
14. Vuong X.C., Vu T.M.T., Trieu D.A., Vu T.T.: Passenger satisfaction model of urban railways based on American Customer Satisfaction Index: a case study in Hanoi, Vietnam.....	183
15. Kowalik M., Liwski M., Papis M.: Generative design-based improvement of a bicycle crank .....	197
16. Jin Y., Sun X., Deng W., Sun G., Zhu X.: An empirical study on the planning of a hospital robotic logistics system based on case analysis.....	211
17. Kiciński M., Boryczko K., Karkula M., Zajda K., Bober D., Sobala A.: Multi-criteria decision-making methodology for multi-depot vehicle routing with pickups and deliveries and time windows – a real-world case study.....	225
18. Pawlak P., Gąsiorek K.: The process of developing a national scenario database for autonomous vehicles – road infrastructure, safety, and socio-economic benefits .....	239
