

Transport Problems

INTERNATIONAL SCIENTIFIC JOURNAL

Volume 19 Issue 1

CONTENTS

	Page
1. Bylinko L.: Integration of an urban transportation system as an element of mobility plans	5
2. Warchoń-Jakubowska A., Krejtz K., Szczeciński P., Wisiecka K., Duchowski A.T., Krejtz I.: Visual attention of tram drivers as a step towards increasing safety in public transport: a comparative eye-tracking study between novice and expert tram drivers	19
3. Brozović V., Kezić D., Krile S., Brozović F.: A hardware platform for a maritime collision avoidance system.....	31
4. Kozłowski M., Czerepicki A., Dzido P.: A lane tracking algorithm for low-computational-power microcontroller-controlled autonomous vehicle models	43
5. Kozicki B., Skrabacz A.: A comparative analysis of injuries and deaths caused by road traffic accidents in Poland and selected EU countries	57
6. Małyśz M., Tomczak P., Szmytkie R., Jurkowski W.: Spatial differentiation of access to bus transport based on the example of core-immediate surroundings connections in the Wrocław agglomeration	69
7. Węgrzyn T., Szczucka-Lasota B., Szymczak T., Łazarz B., Piwnik J.: A micro-cooled high-strength weld for heavy transport means.....	83
8. Juzek M., Słowiński P.: The impact of accelerometer mounting on the correctness of the results obtained in NDT-type tests.....	97
9. Shkvar Ye., Kandume J., Redchyts D.: The key role of modern aerodynamic trends in increasing the energy efficiency of high-speed vehicles.....	107
10. Odachowska-Rogalska E., Ucińska M., Gąsiorek K.: Risk behaviors among drivers: an assessment based on research	117
11. Galdynski D., Abramek K.F., Lisowski M., Golebiewski W., Osipowicz T.: Heuristic model for assessing disruptions in the synchronization of airbag deployment with the driver's body during a collision, based on repaired longitudinal beams	131
12. Sicińska K., Dąbrowska-Loranc M.: Performances and self-declared opinions on handheld mobile phone use (distraction in traffic) in Poland	143
13. Taran I., Bikhimova G., Danchuk V., Toktamyssova A., Tursymbekova Z., Oliskevych M.: Improving the methodology for optimizing multimodal transportation delivery routes and cyclic schedules in a transnational direction	157
14. Petrova-Kirova M., Yosifova D.: Statistical dependencies between non-financial disclosures and ex-post financial performance in the Bulgarian road freight transportation industry	171
15. Chmiel B., Żukowska S., Połom M.: Development of public transport in rural areas in Poland: the example of the Słupsk district.....	185
16. Zalewski J., Aleksandrowicz I., Aleksandrowicz P.: Selected problems in a vehicle-to-truck collision modeling.....	199
17. Prata T., Mira Da Silva M., Santoro F., Reis Pereira A.: Assessing the development of autonomous cars.....	209
18. Malūkas A., Lebedevas S.: Assessment of heat balance in the FSRU regasification cycle aligns with IMO's decarbonisation strategy.....	219
