

# Transport Problems

INTERNATIONAL SCIENTIFIC JOURNAL

Volume 21 Issue 1

CONTENTS

	Page
1. Martyanov V., Czerepicki A., Kozłowski M., Zaklika W.: Probabilistic-statistical analysis of the correspondence between scheduled and real-time arrival times of public transport buses.....	5
2. Veress Á.: Critical role of aircraft maintenance in operation: novel solutions for enhanced efficiency and reliability .....	19
3. Dudnik V., Panfil W., Moczulski W., Żbikowski R., Shkvar Y.: An investigation of a hot-air balloon horizontal motion in conditions of a horizontal thrust force application .....	29
4. Ziółkowski R., Pérez-Acebo H., Gonzalo-Orde H.: Analysis and modelling of driver deceleration behavior near physical traffic calming measures .....	43
5. Alrawi F., Awad H.A., Mhana Kh.H.: Development of a parking index for Baghdad city based on geographic information system applications.....	57
6. Ivanov S., Oliynyk P.: Development of a sky simulation algorithm for the calibration of star detectors and analysis of attitude estimation errors .....	71
7. Macioszek E., Tumminello M.L., Grana A.: Performance rating of cooperative driving on urban roads incorporating traffic-calming solutions.....	85
8. Klyus O., Szczepanek M., Olszowski S., Żurańska B., Chybowski L.: Modification of the fuel injector needle as a means of improving the ecological and economic performance parameters of older-generation compression ignition engines .....	97
9. Barić D., Tomašević M.: Multi-criterion evaluation of safety and mobility improvements in pedestrian and rail traffic flow intersection zones: a case study from Zagreb, Croatia .....	111
10. Matijošius J., Vaičiūnas G.: Comprehensive methodology for urban metro planning ...	123
11. Iwanowicz D., Światała M.: Societal assessment of design parameters and solutions for urban traffic signal systems .....	135
12. Wang Q., Guan H., Li L.: A hybrid DEMATEL–ISM and Bayesian network approach for the risk assessment of nighttime liquefied natural gas carrier operations .....	149
13. Obaidat M.T., Al-Mistarehi B.W., Abu-Yameen A.N.: The effectiveness of automated speed enforcement camera program on urban roads .....	163
14. Andrych-Zalewska M., Chłopek Z., Lasocki J., Merkisz J.: Exploring the dynamics of exhaust emissions and fuel consumption: evidence from regulatory tests of a passenger car .....	177
15. Hoika T., Korecki Z., Hoskova-Mayerova S.: Optimizing military logistics: a simulation-based approach.....	191
16. Grzybowski M., Młyńczak J., Sokołowska L., Matowicki M.: Modeling of relay-based railway interlocking systems with TLA+.....	203
17. Turaev K., Śładkowski A.: Assessing regional disparities: a typology and efficiency benchmark of Uzbekistan’s railway network.....	217
18. Taran I., Szarata M., Kowalski K.: The relationship between peak-hour passenger demand and daily station ridership: a case study of the Rzeszów agglomeration .....	231
